

ART in Suspense...

AS Singapore strives to be the art hub in South-East Asia, Rhema continues to play a substantial role as a logistics partner to galleries and museums.

Amongst the more recent events Rhema facilitated is 'Animaux/ Binatang' which featured the works of Bunga Jeruk, a leading contemporary Indonesian artist. The 'new style' exhibition held at the Sculpture Square in Singapore aroused curious interest in the arts circle.

Another event, associated with Rhema's efforts is the coming "Disappearance of Distance" by prominent Korean artist, Ahn Pil Yun, whose work will demonstrate the immensity and suspense of space.
