Montien Boonma: Temple of the Mind

Montien Boonma is one of Asia's most celebrated contemporary artists. His works are on a solo exhibition as part of Asia Society's 'The Buddhism Project'. Rhema Events and Arts Services (REAS) was called upon to undertake this intricate job of packing these works of art for its tour in the United States.

Most of Boonma's works combine industrial materials, such as steel and bricks, and ephemeral materials, such as spices, herbs and fragrances. His art are spaces that provide an experience of the senses; to encourage the patron to contemplate the impermanence of human life and the physical world.

The sculptures have to be built anew at each location it travels to; this meant that very careful and thoughtful packing was required before it left for its tour of the United States. Maintaining the condition of the highly fragile materials was also an important factor to consider in the packing process.

REAS made sure that these beautiful and delicate works of art were packed securely and safely for its journey and tour in the States. ■
